KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This is a book which tells you what it's like to live with MEVon MelanieThis is a great, well written book. It had me gripped

from the first page. The writer takes the reader along with him on an emotional journey from childhood to the present day. He gives an insight into his life with ME, a debilitating illness, that is not acknowledged. The way the author writes about dealing with ME is excellent. It's an accurate description of a terrible and unrecognised illness. It's a book for people with ME, but also a must read for people who aren't familiar with that illness. A really good read and well spoken about ME.

Kurzbeschreibung I was born Barry John Evans on the 8th April 1991 making me aged 23 at the time of writing this book. I was born and raised in a little seaside town in the North West of England called Southport. I was diagnosed with Asperger Syndrome aged nine. I graduated from university in 2012 and also from a Personal Training academy. I was diagnosed with Myalgic Encephalomyelitis on the 10th January 2013. I have gone from mild to moderate in a short space of time and have since had to adapt my life to accommodate this. This book takes you through my entire journey from when I was young right up to this present day sharing my personal struggles along the way. My experiences have made me into a stronger person today despite suffering with a chronic illness. This is a new chapter in my life and A New ME. 10% of sales made online from this book will be going to the charity Invest in ME.
