**Von Jeff Apter : A New Tomorrow (English Edition)** before purchasing it in order to gage whether or not it would

be worth my time, and all praised A New Tomorrow (English Edition):

Kurzbeschreibung A New Tomorrow tells the complete and unexpurgated story of Silverchair. Jeff Apter documents how Daniel Johns and his two schoolmates, drummer Ben Gillies and bassman Chris Joannou, graduated from the loft above the Gillies' family garage to centrestage of Madison Square Garden all within the time it typically takes most bands to record their first single. When the dust settled and they discovered their debut album, Frogstomp, had sold almost three million copies, Silverchair were faced with an even bigger challenge, as they attempted to prove they were much more than 'Nirvana In Pyjamas'. With the release of their 2002 masterpiece, Diorama, Silverchair firmly established their own musical identity, while Johns has developed into a songwriter with few peers in modern music. Featuring exclusive interviews with the band and all of those who have worked with Silverchair over their rollercoaster ride of a career, A New Tomorrow covers all of the band members' solo work, the Johns/Imbruglia nuptials, the band's 'rebirth' at the WaveAid fundraiser.
