**Von Laura Shaine Cunningham : A Place in the Country (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Place in the Country (English Edition):

Von Ein Kunde I haven't read this title yet, (gave it a 3 simply b/c they made me put something and I thought that would be fair) but it looked promising. But something was bothering me... it looked familiar somehow.

Then it dawned on me. Has anyone else noticed the nearly identical covers of this book and one titled, *Bobos in Paradise* by David Brooks? I mean really! Look at the two covers! You could lay one over the other and have very few differences! Crazy.... Sorry, I know this isn't a review, but it just bugs me that the publishing company wouldn't use more original artwork on one of the titles....0 von 0 Kunden fanden die folgende Rezension hilfreich. Great summer reading! Von Ein Kunde An irresistible ode to the pleasures and absurdities of country living. Laugh-out-loud funny, but also strikes deeper chords about place and identity. Fans of Cunningham's "Sleeping Arrangements" will treasure this semi-sequel; first-timers will be delighted to make her acquaintance. Read this one outdoors!

**Kurzbeschreibung** A second memoir by the author of the acclaimed *Sleeping Arrangements*, Laura Shaine Cunningham's quest for the perfect country house is both hilarious and touching. The *New York Times* hailed this book as a *New York Times* Notable Book and *The New Yorker* published an excerpt...The *New York Times* Book promised would give as much joy as the classic "The Egg and I." Hilarious yet poignant. Having grown up as a city child- 7 people to 3 rooms- she always longed for green acres and a romantic Colonial style house. Her search takes her on many adventures- to a kosher "Country Club" in the Catskills to a movie set on a dilapidated farm where she must enact a survivor of a nuclear holocaust- to a rented castle in gated Tuxedo Park and then at last- to the estate of an English Lord that exceeds her fantasies but features many surprises. She finds herself raising a fat flock of geese, two demented goat sisters and falling in love with the herd of Holsteins whose life is a gustatory march to an endless lunch. Lugging 50 pound sacks of Chow, she gets little product from her lazy livestock but loads of pleasure. *Pressestimmen*.. "a wry, funny account of her life-long country-house fever. This addition to the dream-home genre is a breath of fresh air." **Kurzbeschreibung** A second memoir by the author of the acclaimed *Sleeping Arrangements*, Laura Shaine Cunningham's quest for the perfect country house is both hilarious and touching.
