**Von Trey Ratcliff : A World in HDR** before purchasing it in order to gage whether or not it would be worth my time, and all praised A World in HDR:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Tolle Bilder, bisschen wenig BeschreibungVon Peter von F.Buch ist wirklich zu empfehlen, wenn man Fan von HDR Bildern ist.Allerdings sind die Beschreibungen oft nicht so ausführlich wie gewünscht, Groteil auf der Homepage lesbar - aber ist so (zumindest fr mich) schner zu lesen...3 von 5 Kunden fanden die folgende Rezension hilfreich. Wunderschne Fotos tolle ErklrungeVon Jennifer BrehmTrey Ratcliff's Blog "Stuck in Customs" und seine Fotos bei Flickr sind unter Fotografen inzwischen recht bekannt. Seine Bilder sind einzigartig und sofort als seine zu Erkennen. Wie kaum ein anderer nutzt er die Technik der High Dynamic Range Fotos um seinen Blick auf die Welt lebendig werden zu lassen.Das Buch versammelt die besten seiner Bilder als wunderschne, detailreiche Drucke mit Informationen und Gedanken zu jedem Bild. Denn jedes Bild hat eine Geschichte - die oft hilfreiche Tipps fr Fotografen enthalten. Zustzlich hat Trey am Ende des Buchs ein komplettes Kapitel einer Anleitung gewidmet, damit jeder lernen kann seine Bilder in gleicher Art und Weise zu bearbeiten, wie er. Alles voll bebildert und voller wunderbarer Tipps.Insgesamt schafft er etwas mit diesem Buch, was ich nicht fr mglich gehalten htte: Einen Foto-Bildband mit einem Buch ber HDR als Technik zu vereinen und somit ein Buch zu schaffen, dass sowohl fr Fotografen als auch fr "Fotoanschauer" interessant ist.

Kurzbeschreibung High dynamic range (HDR) photography lets you capture the myriad colors and levels of light that you can see in the real world, and the results are amazing photographs that run the gamut from super real to surreal. Explore this fantastic realm of photography through the unique vision of renowned travel photographer Trey Ratcliff. In this book, Trey shares his phenomenal HDR photographs as well as all the backstory on the adventurous circumstances of their origin. He also reveals the techniques he used to get the final shot. The breathtaking images gracing these pages and the authors real-world advice for capturing and manipulating images will inspire you to create your own HDR magic. So Trey also includes his simple and straightforward tutorial that teaches you everything you need to know to make your own HDR photographs, whether youre a beginner, amateur, or professional. A unique blend of practical and inspirational, this book features a breathtaking collection of HDR photographs engaging explanations of how the author achieved the image expert tips for achieving stunning results (and avoiding common mistakes) a foolproof HDR tutorial and software recommendations

ber den Autor und weitere Mitwirkende Trey Ratcliff is best known for his website, [StuckInCustoms.com](http://StuckInCustoms.com), which is the #1 travel photography blog in the world. His photography has been featured in numerous shows around the world, as well as on ABC, NBC, FOX, and the BBC. In addition, one of his HDR photographs was the first of its kind to hang in the Smithsonian. Having grown up blind in one eye, Trey has a unique way of navigating and capturing the world around him. That vision, combined with an educational background in computer science and mathematics, leads him in an algorithm-like approach to photography that can evoke palpable memories.
