Von Amine Bouchentouf : Arabic For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Arabic For Dummies:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. very helpful book for beginners as well as intermediatsVon B. SchmidtmanIn the beginning I thought it was weird they begann with the pronunciation of the letters (which took some time) but this is really helpful to be able to pronounce words and phrases afterwards.You can skip single chapters (for example the grammar to lern some expressions first) without problem (I did so, because I wanted to be able to say something and then eventually learn some grammar - and it worked out.)The CD really helps to practice the pronunciacion befor talking to an Arab. (so I didn't feel as dummm).This book really motivates to continue learning arabic and the explanations are good to understand!!I think, a cool section is when they tell you what to do and what not to do (did you know that, when shaking someone's hand, you should be sure to avoid pressing the person's palm with too much force? +explanation)After just a few sessions

I'm already able to have a little conversation - this book is super!
