Persönlichkeit von Mark Cavendish und sein Hintergrund von seinen großen Siegen und Niederlagen.

Kurzbeschreibung The hottest sprinter in the world - Telegraph Mark Cavendish is the first British cyclist to win the Tour de France's green jersey, the first to wear the iconic rainbow jersey in almost 50 years and our only ever rider to capture the Giro d'Italia points title. He is the most prolific sprinter in the Tour's history, and - according to L'Equipe - the best sprinter of all time. But smashing records and racking up victories means whole new levels of fame: and this has come at a price. Living in the goldfish bowl, he has come under fire for his bombastic riding style and been portrayed as everything from an outlaw to a psychopath. Joining Sky in 2012, Cav soon found his own sprint interests to be incompatible with the team's other goals, while the expectations of a nation made his London Olympic failure hard to take. In *At Speed* Cav takes you through the highs and lows of it all in intimate detail. This is a take-no-prisoners account of life at the pinnacle of his sport, and learning how to survive in the fast lane, both on and off the bike.

Pressestimmen Praise for Mark Cavendish's debut book "Boy Racer" "Brash, brutal, honest." -- USA Today "A masterclass in the art of winning." -- Daily Telegraph "You'll tear through this book with sheer delight and find yourself quoting bits of it for weeks to come." -- Podiumcafe.com "Exceptionally well-written." -- TheWashingMachinePost.net "Unputdownable." -- Sporting Reflections There is, though, a lot in "At Speed" to make it a good book, a book about struggling with success, the difficulty of staying on top once you get there "At Speed" is the more introspective, probably tells us more about Cavendish the professional, shows more of what really drives him to be as intense as he is. *Boy Racer* might be a more enjoyable read, but *At Speed* is more rewarding. Podium Cafe "At Speed" reveals every facet of the man known simply as Cav Throughout the book you rarely feel that any of Cavendish's views have been airbrushed or, conversely, built up to either avoid or deliberately provoke controversy. He offers honest insights which are simultaneously simplistic and yet original Ultimately the joy of *At Speed* is the sense that, warts and all, this is the story of a rare sportsman. *Velo Voices* "At Speed" is a valuable book for anyone who is interested in an inside, detailed account of a top professional cyclist as he describes his take on his career and cycling. U.S. Cycling Report "Werbetext" The most anticipated sports autobiography of the year from Britain's most exciting athlete
