Von M. Eigh : Automated Marketing with Webbots (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Automated Marketing with Webbots (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. leicht verstdlich aufbereitetVon Meister der LogikDer Autor weist darauf hin, dass einige Praktiken verboten sind und man diese doch bitte nicht anwenden sollte. Aber einmal frs Protokoll: facebook macht nichts anderes. Ich habe mich tatschlich fr bezahlte Werbung entschieden. Das Resultat war erschreckend. Unter meinen "fans" sind Leute, die 10.000 andere Seiten liken. Die meisten kommen aus Iran, Afghanistan, Indien und Co. Komisch oder? Ich unterstelle

nichts. Nachdem ich das Buch "Automated Marketing with Webbots" gelesen habe,... naja, ihr wisst dann was ich meine. - Kommentare sind subjektiv, bitte nicht von Ihnen beeinflussen lassen. Wenn ihr euch für dieses Thema interessiert, kann ich euch nur sagen, dass es kein Quark ist. Sprachlich ist das Buch von M.Eigh leicht und verständlich aufbereitet worden. Liest sich sehr angenehm. Dafür erst einmal ein großes Lob an den Autor :-)

Kurzbeschreibung
WATCH OUT! Side effects of reading this book include a sudden surge of self-esteem and unprecedented decisiveness in making marketing decisions. Also common are a lifetime addiction to web automation and web data scraping. After reading this book, if you spend more than 4 hours with web bots a day, call a therapist right away. I'm sure you've wondered why your competitors' books are selling better than yours. In a perfect world governed by meritocracy, your books would have been selling much better than your competitors'. But is not that perfect world. is a jungle where the street-smart prevail and prosper. What if I tell you the key is marketing? "Here we go again," you roll your eyes: "Who hasn't heard that before? Tell me something I don't know." What if I tell you the key is marketing with web bots? Would I get your full attention? This book may just be the ultimate answer to questions that have been bothering you. I have no doubt it will put energy, wisdom and tangible result in your next book marketing move.

M. Eigh is just another Asian dude who makes a quiet living in IT. He lives in Northern Virginia with his beautiful wife, two daughters and two cats in a charming old house, which came with a morbidly obese landlord, also known as the mortgage. He dreams of murdering that landlord with a bestseller someday, preferably before he has to start paying the kids' colleges. His hermit kingdom is at <http://m.eigh.com>.
