Von Federal Aviation Administration (FAA) : Aviation Instructor's Handbook (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Aviation Instructor's Handbook (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen

KurzbeschreibungAviation Instructor's Handbook: Designed for ground instructors, flight instructors, and aviation maintenance instructors, the Aviation Instructors Handbook was developed by the Flight Standards Service, Airman Testing Standards Branch, in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. This handbook provides aviation instructors with up-to-date

information on learning and teaching, and how to relate this information to the task of teaching aeronautical knowledge and skills to students. Experienced aviation instructors will also find the updated information useful for improving their effectiveness in training activities. Chapters include: Human Behavior; The Learning Process; Effective Communication; The Teaching Process; Planning Instructional Activity; Assessment; Instructor Responsibilities and Professionalism; Techniques of Flight Instruction; Risk Management; Appendix: References; Developing a Test Item Bank; Certificates, Ratings, and Endorsements; Personal Minimums Checklist; Flight Instructor Endorsements; Relationships of Decision-Making Models; Glossary; Index

The Federal Aviation Administration (FAA) is an agency of the United States Department of Transportation with authority to regulate and oversee all aspects of civil aviation in the U.S. (National Airworthiness Authority). The Federal Aviation Act of 1958 created the group under the name "Federal Aviation Agency", and adopted its current name in 1967 when it became a part of the United States Department of Transportation. The Federal Aviation Administration's major roles include: Regulating U.S. commercial space transportation. Regulating air navigation facilities' geometry and Flight inspection standards. Encouraging and developing civil aeronautics, including new aviation technology. Issuing, suspending, or revoking pilot certificates. Regulating civil aviation to promote safety, especially through local offices called Flight Standards District Offices. Developing and operating a system of air traffic control and navigation for both civil and military aircraft. Researching and developing the National Airspace System and civil aeronautics. Developing and carrying out programs to control aircraft noise and other environmental effects of civil aviation.
