A book not to be missed, it's funny, interesting and great!Von Ein KundeMallory is given the job of baby-sitting for the Arnold twins. They give her cheek, and confuse her. But then Mallory discovers that one of the twins has a mole, right under her eye. But they're not going to give up! First, Carolyn and Marolyn go to different classes. One goes to the

other one's piano lessons, the other goes to a science class. But after a while they get sick of it. They are starting to get sick of being twins, being dressed the same, sharing the same room...Mallory has an idea. She talks to their mother, and then there's a solution. Their mother has agreed to let Mallory take the twins shopping for new, and different clothes. Then they get their own haircut. What should they do about sharing a room? Yes, Marolyn gets the spare room and then everyone's happy! So, if you're a twin, and hate being dressed alike and sharing a room with your twin, then this is the book for you! Even if you are a twin, you can still have your own life!0 von 0 Kunden fanden die folgende Rezension hilfreich. WonderfulVon WTVR3@aol.comThis was my very first BSC book I read, which was maybe 4 or 5 years ago. It's very good. Mallory has recently been initiated into the BSC, and wants to prove to Kristy that she is a responsible, trustworthy sitter. So she takes a sitting job for the Arnold twins, thinking that it will be a peice of cake. She already has 7 other siblings. Simple, right? Wrong! The Arnold twins - Marilyn and Carlolyn- are distasters! They are identical, and drive Mal crazy! They hide from her, lie, get her in trouble, and switch their ID bracelets, so Mal can never tell who's who! Will Mal be able to prove to Kristy that she really is a good sitter, even with these two on her hands0 von 0 Kunden fanden die folgende Rezension hilfreich. This book was very good. I think most BSC fans will like it.Von Ein KundeMallory and The Trouble With Twins is about Mallory and two twin sisters she babysits for. They get into lots of mischeif and have lots of fun by talking in secret languages. There I.D. braclets can help tell them apart sometimes, but only when they have them on!! Finally Mallory finds a way to make the twins talk. She even finds out how to tell them apart!Read the book to find out the rest of this wonderful story! I thought that Mallory and The Trouble With Twins was a very good book because there was fun and mischeif envoled in it at the same time. Anyone who likes a good book to cuddle up with should read this book.Book Review By K.B.

KurzbeschreibungMallory discovers that the terrible twins she babysits on a regular basis are not really bad-- they just want to be treated as individuals.KurzbeschreibungMallory discovers that the terrible twins she babysits on a regular basis are not really bad-- they just want to be treated as individuals.
