before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic Persian: A Grammar and Workbook (Grammar Workbooks):

Excellent!Von BeaverThis book is precisely what I wanted: an excellent guide for those who start learning Persian, yet with clear and concise grammar explanations which proved to be very valuable and well-structured. No previous command of the language is needed, the book leds itself beautifully to beginners with no prior knowledge of Persian. What is more, the exercises at the end of each chapter make this book not only worthwhile theoretically, but also practically, combining (grammar) theory, vocabulary and relevant practice. Highly recommended to persons who desire a more serious or scientific approach to learning the language.0 von 0 Kunden fanden die folgende Rezension

hilfreich. A good book to start learning form in general. Von WalidI don't know if the perfect language book is there for the grabs, but this one is one of the best ones, although I gave it only 3 stars for its complexity, since it is directed to an audience who are into linguistics and are not easily bored by 1-2 pages of explanation of the origin of a certain word or letter. Otherwise I find this book a good tool to start with, then one can explore his options furthermore.

It needs an all-round practitioner to teach the subtleties of this apparently easy but eloquently idiomatic and multidimensional tongue. His book is an essential "vade mecum" for all who have decided to make Persian their own."
