Beginners Guide to Studying the Bible Von Ein Kunde I borrowed this book from our local library (a very good way to
try before you buy) and I am VERY happy to find it available. This simple book really opens your mind to
understanding God's word. It's basic concepts are valuable no matter what book you are reading. I cannot wait to get

my own copy so I can highlight, underline and write notes in the margins! I will also be putting this book on my list of gift ideas for friends and family.
