Von Frank Freidel : Franklin D. Roosevelt: A Rendezvous with Destiny (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Franklin D. Roosevelt: A Rendezvous with Destiny (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Extremely indepth, and sometimes cumbersomeVon Ein KundeThis book was quite interesting, involving Roosevelt's entire life, including every little nugget of his political life. If you are moderatly interested in FDR, read this book, but be warned, if you are just a casual reader, it may be best not to get a book that is so detailed. I certainly enjoyed this

book, and would recommend to any political science student, or a person studying history. FDR was an interesting man, and it was a joy to read about this brilliant president. 0 von 0 Kunden fanden die folgende Rezension hilfreich. great one volume life Von Frank If one wants to start learning about the life of the 32nd President, this is the book the start. Friedel devoted his life to chronicling the life of this great leader. The book is very readable and covers all the important events in Roosevelt's life. The general reader and historian will be impressed.

Kurzbeschreibung Freidel (history emeritus, Harvard U., U. of Washington), whose four-volume biography of the young FDR concluded with the launching of the New Deal, now offers a one-volume complete biography. Although he details Roosevelt's life before his presidency, the focus is on the Depression and wartime periods. This will probably become the standard one-volume biography. Annotation(c) 2003 Book News, Inc., Portland, OR (booknews.com) From Library Journal One volume has been too small a vessel for most FDR biographers. Five multivolume projects are on the shelves, while only three recent works of significance measure Roosevelt's entire life in a single book. The latest is Freidel's, whose Franklin D. Roosevelt (1952-73), even in four volumes, doesn't go past 1933. The graceful narrative of that magnum opus is absent in the author's new work, which is not so much a true biography as a distillation of the mass of Roosevelt scholarship. Freidel's new life concentrates on Roosevelt's presidency, with public events the consistent focus, and the private man left mainly alone. What results is the most authoritative of the one-volume works; but Nathan Miller's FDR (LJ 1/1/83) will often be the best choice for nonacademic readers, and Ted Morgan's FDR (LJ 11/1/85) is also available. For all college and many public libraries.- Robert F. Nardini, N. Chichester, N.H. Copyright 1989 Reed Business Information, Inc.
