**Von Susanna Ivy : Galapagos Dreams: A Photo Journey (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Galapagos Dreams: A Photo Journey (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. fantastisches FotobuchVon WillNun habe ich also mein erstes Fotobuch gekauft und es ist direkt ein Volltreffer gewesen. Da es schon immer ein Kindheitstraum von mir gewesen war die Galapagos Insel zu bereisen, war ich natrlich glcklich ein Fotoband ber diese wundervollen Inseln zu ergattern.Am Buch selbst finde ich die vielfltigsten Eindrcke der Insel am schnsten, so dass ich schon ein gutes Gefhl habe was mich bei meiner Reise erwartet. Am liebsten wrde ich jetzt direkt auf der Stelle meine sieben Sachen packen, mich in den Flieger schwingen und starten. Leider gibt es da noch meinen Job....Die vielen Fotos sind sehr beeindruckend und bei manchen Aufnahmen stelle ich mir die Frage wie sie zustande gekommen sind. Beispielsweise das Titelfoto: Wie lange muss man gewartet haben, bevor man ein solches Foto mit der richtigen Belichtung in der Kamera hat. Vielen Dank Fr. Ivy fr diesen schnen

Bilder. Mein Urteil: sehr empfehlenswert !2 von 2 Kunden fanden die folgende Rezension hilfreich. So nice... Von Customerso nice...a little "must have" for all galapagos fans... i just bought this book due to its promising title. and i just liked it... it took me on a journey to lovely galapagos... :)1 von 1 Kunden fanden die folgende Rezension hilfreich. A set of really nice pictures Von J. BrehmI recommend the picture book for color kindles only, because it contains some of the nicest galapagos pictures I have seen, yet. Anyway, I would've liked some background story to the photos , for example - what happened a the day the photo had been taken, or else. Nonetheless - an excellent set of many really nice pictures!

Kurzbeschreibung Susanna Ivy captures one of the most ecologically diverse locations on the planet with a fresh eye and stunning sense of perspective and color. Here, readers will be transported to the islands famed for their vast number of animal species an island studied by Charles Darwin during the voyage of the Beagle. Galapagos Dreams presents full-color photographs of a whirlwind tour of these diverse islands. Isolated from the mainland of Ecuador, here animal and plant species evolved at their own pace...and the results are breathtaking. All of which are captured in full color by nature photographer, Susanna Ivy. Sponsored by Sony and winner of the prestigious Galapagos Calendar Contest, Susanna will bring to you the Galapagos Islands as you've never seen them before. And for those new to this wondrous island chain, be prepared to fall in love with it. Use this book as an addition to your travel guide and as inspiration for your own great shots. Please note: For best results it is recommended that you view this book on Kindle Fire, a free Kindle computer application or a free Kindle smartphone application. For those with black and white Kindles the photos will still be viewable. \*\*Acclaim for the Photo Books by Susanna Ivy\*\* "Galapagos Dreams: A Photo Journey' is just that; a dream journey through images that take your breath away. Susanna Ivy doesn't just show you what it looks like, she puts you there. Her beautiful images give you the feeling that you are there with her experiencing the sights, sounds and smells that she did. Sometimes playful, often striking and inspiring but always memorable, her work is like a visual memoir that leaves you awestruck and anxiously awaiting to join her in the images of her next passionate photography adventure." - PATRICK KELLEY, professional photographer at Patrick Kelley Worldwide Photography, National Geographic For updates follow her here:
