Von George Hewitt : Georgian: A Learner's Grammar (Routledge Essential Grammars) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Georgian: A Learner's Grammar (Routledge Essential Grammars):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. A good introduction to a mind-bending subject. Von Ein Kunde Trying to learn Georgian is like banging your head off the wall. It is an incredibly difficult language, the main problem being the verb, which frequently must agree with the subject, the direct object and the indirect object. Not only that, but verbs can take different cases depending on what tense they are in. But if you still want to learn Georgian after all that, this is a good book to use. The dialogues are interesting, the vocabulary rich and varied, and the exercises are quite funny. Learning Georgian is no lark, but this is a well designed book that can help the persistent learner on his way. I'm on chapter seven, but I still have a lot to learn. jalian kargi

cignia (It's a very good book)3 von 4 Kunden fanden die folgende Rezension hilfreich. A good introduction to a mind-bending subject. Helferich I have purchased and studied both of the (major) Georgian textbooks currently available on the market. I do not prefer this book for a couple of reasons: First, ask any Georgian about what is being said and taught within the textbook. They will (justifiably) be appalled. Gross and gratuitous misinformation and language. The consensus amongst Georgian academia (who welcomed Hewitt into their world with open arms) is that he has allowed his pro-Abkhazian leanings (understatement) to cloud his judgement as a respectable author and academician. The results are evident throughout the book. Second: Aronson is better. Hope this helps. Studying Georgian language requires a great deal of investment--both time, energy and money. Don't waste it by purchasing and studying such a grossly substandard textbook.

Kurzbeschreibung This is the first learner's grammar of this fascinating language to appear for many years. The Grammar presents the language in the form of dialogues and reading passages. Full attention is given to the script reproduction and recognition, pronunciation, lexis and individual points of grammar. There is a range of exercise work. The reference section provides an exercise answer key, Georgian-English glossary and an index of grammatical terms. Pressestimmen? There is no doubt that this book is necessary and unique. It has no serious rival.? -Donald Rayfield, Queen Mary College, University of London, UK There is no doubt that this book is necessary and unique. It has no serious rival. -Donald Rayfield, Queen Mary College, University of London, UK" There is no doubt that this book is necessary and unique.
