Simple, easy to understand guide how to help children to fall in love with booksVon Helpful Advice'Get Them Reading' written by Karl Jeffery somehow reminded me to the beautiful children book How to Read a Story, written by Kate Messner for which I recently wrote a review - both sharing the subject how important is to encourage the children reading, but even more the understanding and enjoyment of what was read.When Karl contacted me about his book, not expecting my review, but wanting to reach out and thank me for all the work I did on promoting good children books, I certainly had to read his work.Karl is a children motivational entertainer and has been motivating and encouraging children to read since 2012. As man of today he understands how important is to be aligned with modern trends - therefore Karl decided to transfer the work he has been doing in schools and libraries into an online platform, so children and parents everywhere can benefit.He decided to create a simple, easy to understand guide for parents and all others that care for children, helping them to overcome some of the challenges or frustrations they might face while helping children to read. Because there are many reasons why children dont read, the same as the adults - sometimes they find it hard, or they are tired, not interested, or sometimes they just dont understand it.Because of those reasons, Karl wanted to make life easier for the adults teaching them how to be good support for their children in fabulous journey to discover the world of books. As Karl said, he has written everything he knows about motivating, inspiring, and encouraging children to read and as result a book not thick in scope, but work of great quality called Get Them Reading is in front of the reader.I loved it, and thus his book 'Get Them Reading' can be equally recommended as the work of Karl Jeffery as a whole can be praised.I was given a copy of this novel by the author in exchange for an honest review.

KurzbeschreibungDo you want to give your child the BEST future PossibleOne of the best things you can do is to get them reading.Research proves children who are keen readers do better in school, and have a greater chance of living a happier more successful life...
