Nice read to get into the mood for the Annapurna CircuitVon Doc TommesSince I am heading off trekking the Annapurna Circuit myself in a couple of weeks I am eagerly reading narratives about this fascinating treck. I found "Skywalkers"

book and read it in almost one sitting. I enjoyed every page he wrote and suffered with him every step he took - well, and shared his joys as well. Bill writes from his heart, he is funny and he is not too shy to admit all the stupid mistakes we've probably all fallen to when first traveling to a foreign culture. Highly recommended - even if you plan to stay on your comfy sofa at home.

KurzbeschreibungWhat is the best way for the average person to authentically experience the world's greatest mountain range--the Himalayas? Fortunately, there is now a good answer. The Annapurna Circuit in Nepal is the most popular footpath in Asia. Its genius lies in its design. Trekkers wind their way around and along some of the world's greatest peaks, ultimately getting near 18,000 feet, without ever having to do any 'technical climbing'. This Circuit is widely considered one of the world's great treks, and mortals from all around the world are coming to Nepal for the unique chance to 'get high'. Bill Walker ('Skywalker') struggled his way through the Annapurna Circuit in 2012. He has written this entertaining tale of his journey in this land of Sherpas, cold, altitude, and rushing water.
