Von E. H. McLellan : Gimpy's Secret . . . it's what's missing (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Gimpy's Secret . . . it's what's missing (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Have a good timeVon AndreSchamazing little book with some philosophical aspects for young and older people. Easy to

readHave a good time with Gimpy and Helen.Zu empfehlen !

Kurzbeschreibung "This book is more than a read, it is an experience... Gimpy's Secret is a well-written read that employs an artful use of simplicity. The concept is deep but does not rely on verbosity or heavy language to weave a delightfully light tale that packs the heavy impact of a powerful message. ... will change lives by provoking us directly but delicately on a philosophical journey." - Laurette Lynn, author, speaker, home education advocate, founder/host of Unplugged Mom Radio. Based on 30+ years of a vast and vigorous scientific exploration into human co-existence, Gimpy's Secret is the entry level introduction to the concepts and discoveries of that research. Finally and for the first time, a blueprint, for getting along with one another; not only in our closest relationships but in all our encounters in this dramatically changing, completely confused and disordered social environment. The highly educated with preconceived ideas may have to re-think what they think they know about the subject matter. Loved, and quickly grasped, by children yet simple enough for adults, Gimpy's Secret is not just "kid's" stuff! It is the underpinning upon which the solutions for the future will be built.
