Von Andy Tyson : Glacier Mountaineering: An Illustrated Guide to Glacier Travel and Crevasse Rescue (How To Climb Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Glacier Mountaineering: An Illustrated Guide to Glacier Travel and Crevasse Rescue (How To Climb Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great

book Von Ben Great book! The illustrations are very clear and kind of funny too. This book takes the right approach. It shows you, rather than tells you, how to do it. I think the average reader will grasp more of the concepts with this approach. I would recommend this book for anyone planning to cross glaciers. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Good read Von Trivik The book has a lot of great info for Mountain enthusiasts. The pictures and cartoons help figure out what the text says and is also fun to read. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A very good book ! Von trischtan When i read this book i soon got the feeling that the two writer try to give their essence knowledge.

Kurzbeschreibung This is the only book to clearly illustrate and systematically guide readers through glacier anatomy, equipment, route finding, and rescue techniques and, just like our other books that are illustrated by Mike Clelland, it is guaranteed to entertain the whole way through.
