great book! Von Customer There are a lot of self-help books on presentation techniques on the market these days. Reinoud's book "Grab 'em" is different. It is complete, well written, comprehensive and fun to read. His techniques can be used right away. I did get the most insights from the chapter on how to deal with difficult situations during a talk.

Kurzbeschreibung How do you convey your message in such a way that it inspires people, makes them enthusiastic and gets them involved? Is this just for a select group of passionate, talented individuals or can we all learn how? Good news: giving captivating presentations is a skill that you can learn, just like you learned to ride a bike. How? This will gradually unfold in this book. If you learn all of these skills and apply them, your presentations are guaranteed to make a long-lasting impression.
