**Von Val Dumond : Grammar For Grownups (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Grammar For Grownups (English Edition):

We find absolutely everything in it...it's great. And the descriptions and explanations are wonderful....and funny! ie: "Yes, grammar (like sex) holds

out the challenge to do it well." "Chapter 3 Do/Be/Do/Be/Do". For those who still want drill, each chapter has exercises at the end....with answers given. The ultimate? People from neighboring offices are now asking us to "Look in that book of yours for xxx." How's that for a reputation?0 von 0 Kunden fanden die folgende Rezension hilfreich. A terrific way to review grammar!Von Ein KundeI thought I knew our language and how to use it. Then I read Grammar For Grownups (a friend recommended it) and I discovered many of the reasons for all the rules. The author eschews "rules" and instead provides guidelines. I like that. As an attorney, I like to know why something is being done. This book helps me know why "between you and I" is usually wrong. The Handy-Dandy Pronoun Guide is a godsend. This book sits on my desk and is used just about every day.0 von 0 Kunden fanden die folgende Rezension hilfreich. Looking for a gift?Von Ein KundeLooking for a gift for someone who has to write letters, grants, sales briefs? This is the book. The guidelines Ms. Dumond suggests are indispensable. The Pronoun Guide is a very useful tool. This book is always near my computer and is used regularly. The copy I am buying today is for a gift, and I know it will be a hit.

KurzbeschreibungHere, at last, is a manual for people who have to use language in the real world. Not a list of hard-and-fast rules that you learned (and forgot) in grade school, Grammar For Grownups is a clearly and wittily written guidebook complete with practice exercises that shows how to use language effectively by refreshing your knowledge of how grammar works and how words fit together to create meaning.In simple, easy-to-understand language, Val Dumond takes you through the Parts of Speech, Punctuation, and Spelling in a way that always keeps in mind the object of all the rules: getting your meaning across quickly, effectively, and completely. In addition, she shows you how a knowledge of grammar and usage is essential to produce effective writing.As adults, it's particularly important we express ourselves clearly, both in speaking and in writing. Grammar For Grownups is the book that enables you to do just that!KurzbeschreibungHere, at last, is a manual for people who have to use language in the real world.
