KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Funny, useful!Von Larry BowersReading this book was very interesting and helped me raise my score a lot for the SAT- instead of being boring and presenting complex strategies for the SAT, this book shows sneaky short-cuts that are easy to learn and has questions to practice with-what I found the best about this book was the vocabulary list that was published at the end (and on the bottom of the pages)-it isn't too huge like the other books which just puts you off-when I took my SAT, many of those words (that I had learned due to this book) showed up on the test. I would highly

recommend this book to people who are not into spending months and months looking over huge vocabulary lists and who are looking for great strategies to easily raise their score. The book is quite funny too, so you never get bored while reading it! Overall, great book-5 stars.
