your Family and Business! Von Helpful Advice Samih T. Darwazah with his work *Lessons to Grow a Billion-Dollar Company* managed to create a book that is much more than the set of business advices the authors knowledge and rich experience will be useful for the improvement of the whole life, equally business and private part because it is hard to draw a line between them. Samih T. Darwazah, mostly known as the founder and CEO of pharmaceutical company Hikma Group that run their business in Europe, US, Africa and Asia, is a Fulbright Scholar, the recipient of five honorary PhDs and former Jordanian minister of energy. Though I did not have read his first book *Building a Global Success* in which Darwazah described the rise of the company led by him, with his second book the author won me over with his innovative ideas that defy mainstream gurus telling: *Mix your Family and Business!* In this book Darwazah, from the position of person that created the big medicine-manufacturing company and successfully leads it, with his advices aims to help the readers changing their views on running the business while offering different and unconventional attitudes based on own example. Through twenty-three lessons he learned during his life and business career such as *Be Ethical, Watch Your Health, Lead by Serving, Know When to Step Aside and Keep Learning* - Samih T. Darwazah indicates how to become successful, not destroying a private life in the process that is a very common characteristic of successful business people. That is why he emphasizes how important and unavoidable is to keep those you love close in order to become professionally successful and fulfilled and happy as person. Therefore I can recommend *Lessons to Grow a Billion-Dollar Company* not only for people that are already running their businesses but also for all those that dare to plan following that path because a good start provides a significant guarantee that the journey will be less uncertain. This was the first time I encounter with Samih T. Darwazahs work, but after reading his second book I certainly plan to read his debut as well. I was given a copy of this book by the publisher for the purpose of unbiased review, while all the presented information is based on my impressions.

Kurzbeschreibung The Secrets of Mixing Family and Business Big businesses are under fire today more than ever, with bailouts, scandals, and outrageous CEO salaries. But Samih Darwazah and his billion-dollar, multinational Hikma Group stand alone. With its solid ethical, inclusive, community-aware policies, the medicine-manufacturing giant is a formidable competitor in the world of Big Pharma while maintaining a people-first corporate culture that considers all employees kin and always puts family first. In *Lessons to Grow a Billion-Dollar Company*, Darwazah offers his invaluable insights into how he rose through the ranks of the international business world without once compromising his most valuable assets: the relatives who have stuck by him through thick and thin. While other moguls advise never mixing family and business, Darwazah shows instead how vital it is to keep those you love close in order to find both professional and personal success. The twenty-three hard-learned lessons he shares herefrom hire wisely to marry wisely offer a revolutionary model of doing business that encompasses all of life, not just the bottom line. The valuable story of one of our regions most successful executives, whose life, work, success, and philanthropy are a source of great pride. Her Majesty Queen Noor Al Hussein, The Hashemite Kingdom of Jordan Words of wisdom from which many can profit. Peter Dorman, president, American University of Beirut Conventional, down-to-earth, old-fashioned wisdom and deep, incisive insights into the workings of modern business and economy. Khalil Hindi, president, Birzeit University About the Author Samih Darwazah is the founder and chairman of pharmaceutical giant Hikma Group, which operates plants in America, Jordan, Portugal, Saudi Arabia, and Tunisia. A Fulbright Scholar and former Jordanian minister of energy, he is also the author of the critically acclaimed *Building a Global Success*.
