**Von David Finnell : Life in His Body (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Life in His Body (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. The best basic overview of Cell ministry I am aware of. Von Ein Kunde This is a very easy to read book that lays out the basics of cell ministry. Some of the diagrams may seem too simplistic or even kind of seventies-ish, but they are understandable. Most of the cell ministry books are written from a charasmatic church background and have parts that

presuppose a church where tongues are used as a part of the church ministry. This book does not assume that, and can be useful for leaders of churches that do not practice the use of tongues in their ministry. Also I think the author does an excellent job of show the difference between a small group and a cell. One warning, if you give this out to leaders as an overview of cell ministry you need to debrief them as to your specific cell meeting agenda. As chapter six gives a specific agenda and time schedule, some leaders may panic if this is not consistent with what you are doing or desire to do. Again, excellent overview of cell ministry.

Kurzbeschreibung What pastors like most about this classic by David Finnell is the way it contrasts programs and the traditional church with the way a cell church operates. Each chapter delves into a different area of the cell-based model, helping the reader gain a new paradigm for living in Biblical community and operating as the church in cell groups. Chapters include: Introduction to the Cell Church 1. The Concept 2. Basic Christian Community Spiritual Foundations 3. Spirit-filled Servanthood 4. The Power of Prayer Cell Group Dynamics 5. "Oikos" Relationships 6. The Cell Group Meeting 7. Understanding Outsiders 8. Reaching People Through Cell Life Leading a Cell Group 9. Cell Group Servants 10. Administration Appendix Instructions for Prayer Walks If you are looking for a resource to work through with your key leaders (deacons, elders, lay leadership) to help them see the difference between a "come to our building" type of church and a marketplace-based, missional, organic model for church life (cells), you will find this resource to be very helpful.
