personal love story Von Kunde This packing story about a little girl who discovers her true love - horses - tells about personal events and shows how the deep inner involvement with the author's beloved boys (horses) helps her master all challenges and succeed in life.

Kurzbeschreibung Dagnys obsession with horses began when she was young and could bounce back from injury. In the beginning, she spent more time being catapulted through the air than actually sitting in the saddle. After a childhood tragedy, however, she is left hanging by a thread and eventually walks away from the magic of Equus. Years later, when adult life becomes as exciting as bone marrow, Merlot gallops into her life. Yes, buying a devil of a horse is just a brilliant solution to midlife boredom. Shaking in her boots, Dagny soon realizes life is not pink. What follows is a winding and often hilarious tale of horses, ice storms, downed electric fences, a nasty hurricane, and one very crazy life. Spanning two countries and five states, the author takes the reader on a very personal, touching journey with profound life lessons. Lighthearted and funny, the book will appeal both to riders and non-riders and is a perfect gift for anyone who enjoys a smart, entertaining read.

ber den Autor und weitere Mitwirkende Dagny Mofid is not internationally acclaimed - although having practiced acceptance speeches in front of a mirror for years, she can be ready at a moments notice. In her spare time, but only after doing the dishes and folding clothes, she writes. Known for lighthearted humor and sarcastic wit, her writing has appeared in newspapers and journals. She has also ghostwritten a riding instruction manual. After roaming around much of North America, she now lives with her childhood sweetheart in the warm desert of southern Utah. She is still wondering how she got there.
