Von Wendy Toliver : Lifted (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lifted (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Courtesy of Teens Read TooVon TeensReadTooJust before her sophomore year, Poppy Browne is taken from her normal life in Boulder and unwillingly put into a new town, Pleasant Acres. There, Poppy will be attending Calvary High, a Baptist school that has its fair share of sins and secrets.Right off the bat, Poppy causes quite a stir with her nose piercing and a few snarky comments, which gets her noticed by the popular girls, Whitney and Mary Jane. She's never felt the need

to fit in, as back in Colorado she hung out with the tats and pierced crowd. But now she faces a dilemma of which clique to befriend. Should she choose the ever-popular and extremely gorgeous girls, or the "Good News Choir" that features Bridgette Josephs, the all-around overachiever and Poppy's very own Calvary High tour guide? Intrigued by Mary Jane and Whitney, Poppy finds herself getting friendly with the two, wondering how she climbed up the social ladder so quickly. Unfortunately, Poppy will soon discover that being friends with these two girls probably wasn't the best choice to make. Turns out they have an itch for shoplifting. Before she knows it, Poppy is lifted into an entirely foreign world filled with an irresistible and charmingly arrogant preacher's son, old grudges, revenge schemes, and a whole new temptation complete with a rush that is full of expensive merchandise. Can Poppy handle such things as crushes, a best friend's boyfriend issues, and backstabbing, or will she need a quick prayer and some major forgiveness to get her through the year? Wendy Toliver realistically portrays a girl swept into a world of stolen goods where the rush takes control and the actions become impulsive. Poppy, as the central character, gives the novel a lighter feel, with her hilarious outlook on life and love. LIFTED has all the important qualities that make it a good read: it's fun, smart, and extremely addictive, just like the main character and her frowned upon new habit. Reviewed by: Randstostipher "tallnankyrn" Nguyen

Kurzbeschreibung It's not what you steal. It's getting away with it that's so much fun. Lifted, a novel by Wendy Toliver. Pressestimmen Especially well drawn is Poppys crush, a quirky, sincere ministers son, who as Poppys world spins out of control comforts her with unconditional support: We all make mistakes. It says so in the Bible, so its gotta be true. Will appeal to all teens interested in wayward behavior. --Booklist Smart, deftly written, and extremely well-observed, Wendy Tolivers Lifted is so realistic and moving I felt like I was transported right inside Poppys world, watching as she struggled to navigate her way through a school where appearances are deceiving and no one is quite what they seem. A hard to put down, compelling read! Alyson Nol, #1 New York Times Best Selling author of The Immortals series Lifted is the story of an imperfect heroine seeking her place not only in school, but in life. Its exploration of the amount of truth behind social and religious stereotypes escalates into a double-dog dare to believe them. A haunting morality tale that will leave you questioning just what it means to be "good." --Aprilynne Pike, author of the #1 New York Times Best Selling novel Wings Kurzbeschreibung It's not what you steal. It's getting away with it that's so much fun. Lifted, a novel by Wendy Toliver.
