KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A psychological approach... Von Meite N. Even though the book is of an older age the further reading list is the only outdated thing in the book. Having lived nearly four years in japan with my husband i am agreeing with most views in this book though its written for american audience inthe first place. Anyone who is interested in the psychological side of moving to, living in and returning from japan might find some usefull information here.
