Courtesy of Teens Read Too Von Teens Read Too For teenager Lucy Beauregard, love seems incomprehensible. It's not that she doesn't want to be in love someday, or even that she doesn't imagine the guy she might fall in love with -- it's just that she doesn't really understand love. Sure, she gets the basic idea, but deep down, real true love? What is it, really? And

how do you know you're in it? How do you find it? Lucy dated a guy last year; he was her first real kiss. At the time she thought she loved him. But now, he doesn't seem to matter so much. If it was really love, wouldn't it still matter? Is love what her best friend, Mary Jordan, has with her boyfriend? Then why does it get so confusing? Lucy's other best friend, Evie, seems to have some good theories. Surprising for someone whose own family breaks her heart over and over. And what about the new teacher who seems to be hitting on Lucy, even though she knows his wife and babysits for them? Lucy's only real example of love used to be her parents, but now even that looks like it's falling apart. It seems like the harder Lucy tries to understand it all, the further she gets from it. It's all awfully confusing and difficult for something that seems like it should be natural and effortless! Lucy learns some unbelievable things about life, people, heartache, pain, and yes, love, before the end of this story. At the end she's still the same Lucy, but stronger and wiser, and, at the same time, more willing to let go. I love how perfect this book is! Love can seem confusing, and scary, and painful, and difficult. And it's all multiplied when you're just starting to figure it all out. I remember how tortured and intimidating everything about love and dating felt; this book took me completely back there. But it's also sweet and simple and wonderful in the most unexpected ways, just like this story. If you pay attention, the best lesson about love is in here. Just in case you miss it though, I'll tell you: No one can love you if you don't love yourself. Someone else can't make you whole. You have to do that yourself first. A wonderful book about love and life, blended magically with a Cajun soul. Reviewed by: Carrie Spellman

Kurzbeschreibung It's the summer before Lucy's senior year in high school, and life in her sleepy Louisiana town is about to be turned upside down. Her mama's flirting with the dark stranger who runs the art gallery, her best friends Mary Jordan and Evie have boys on the brain, the drama teacher is sparking some powerful (if very, very wrong) feelings in Lucy, and a new boy has moved to town-Dewey, whose gentle ways captivate her. With everyone, including herself, so embroiled in affairs of the heart, it is any wonder the town of Sweetbay is fixin' to have itself one sweltering summer? For fans of Rebecca Wells and Kimberly Willis Holt, here's a delicious novel sure to be read, loved, and passed along. Pressestimmen I love how perfect this book is!
