**Von Peter Darman : The Survival Handbook: Learn the survival skills of the world's elite forces (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Survival Handbook: Learn the survival skills of the world's elite forces (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich.  
Survival Von Ein Kunde Everything you needed to know about survival. The book contains survival techniques of the french foreign legion, the british Special Air Service as well as the U.S. military. Their skills are phenomenal and the "tricks" section of the book is the most phenomenal and surprising reading I have ever read.. I myself like to see myself as a survivor but not until I read the book did I know what REAL survival is... The book has also got chapters that cover military boobytraps and urban-warfare weaponry making as well as using plants to eat, heal or cause poisoning..

For the price it's sold here you can't afford not to buy it!

**Kurzbeschreibung**The Survival Handbook takes you through all the things you need to know about surviving disasters and staying alive in the wild, such as where to find water in the desert; how to build shelters from locally-available materials that will keep out the wind and rain but will also be ventilated; what plants are safe to eat and what are deadly poisonous; and what animals will pose a threat in survival situations.Packed with tips from the world's elite special forces and other survival specialists, this is a handy reference to surviving in the wild.**Kurzbeschreibung**The Survival Handbook takes you through all the things you need to know about surviving disasters and staying alive in the wild, such as where to find water in the desert; how to build shelters from locally-available materials that will keep out the wind and rain but will also be ventilated; what plants are safe to eat and what are deadly poisonous; and what animals will pose a threat in survival situations.Packed with tips from the world's elite special forces and other survival specialists, this is a handy reference to surviving in the wild.**Synopsis** A guide to travel and survival in wild and remote regions.
