awesome tale with great concepts... Really, loves it.Von Urvashi R.usually I don't read fiction books, but i am sure it is one of the best.The way, story goes on is unique and exciting, and the characters are really awesome. The main character 'Junior' is really surpassed many of the fictional heroes I have ever seen in movies and read in novels. Hunters concept is also great. And the villain, He is really Devilish. After a long time i read such kind of genuine

novel. Each chapter comes up with a new heart trembling secret and excitement. The concept of fate is also great, and my best is the Dogman, really, Dogman was a fate with more humanity and guts than any other man. Some furnishing is needed in writing skills, mainly in describing sections, but it's OK for such a great work. I think The Tale must go on...

Kurzbeschreibung It is the tale of a left handed archer boy who changed his Fate three times, and saved the world from its end by the anger of God and Devil.
