Bewertung der Schattenseiten des Lebens in den USA. Sehr berührend herausgearbeitet. Bis zum Schluss fesselnd.

KurzbeschreibungThis is the story of my mother, who, in 1939, discovered her husband was suffering from tertiary syphilis an affliction which could be cured then only by long years of treatment. The horror with which syphilis was surrounded was similar to that provoked by HIV/AIDS in the 1980s. My mother was childless at this time. Instead of being destroyed by this news, she resolved to have children anyway with a man she would choose. Her decision resulted in the birth of twins my brother, who died ten years ago, and myself. This book is about the courage of a determined woman, and the consequences, for her and her children, of her will to survive.
