Living the dreamVon Sandra SnoopyI met Danny the day he came to Prince Rupert after the kayak trip this book is about. He told us about his idea and how it became reality, and this is exactly what you can read in this book. The story of a guy who got laughed at, because he travelled along the inside passage with his hammock, some google map prints, a 2 dollar compass and a dream. No phone, no connection to the outside world.This is a trip I wish I would dare to do, an

inspiration to anyone chasing their dreams. When I concentrated, I almost felt like being back in the Pioneer hostel, listening to Danny telling us about his story. Thanks for sharing this adventure, Danny!

**Kurzbeschreibung** This is not a story about cutting off body parts to survive, or going to brink of existence in an unforeseen twist of fate. This is an adventure born from watching old movies and programs of people living and travelling in the Alaskan/Canadian wilderness. It is a story of a solo quest to get to Alaska by kayak with very little experience, surviving in the wilderness along the way; its a story of learning to believe in yourself when some others think youre crazy, of putting one foot in front of the other each day, and of trusting your wits to get you out of a situation if it all goes wrong. Some describe it as crazy, some say its a spirit quest. All I know is that I needed to do it, so I did. There is a youtube video diary of the trip you can check out here
