Ein wundervolles Buch ber wundervolle Menschen und ihre FreundschaftVon =^..^=Alle die wir Jack Klugman und Tony Randall aus "Mnnerwirtschaft" kennen, erhalten hier einen Einblick in die Entstehung der Serie und den Hintergrund

und die Freundschaft der Hauptdarsteller. Mich hat das Buch so begeistert, dass ich fast Lust hatte es ins Deutsche zu übersetzen, um es den Menschen zugänglich zu machen, die es (leider) nie in der Originalfassung lesen werden. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Ein Buch mit Herz. Von Boto. Ein sehr berührendes Buch. Kann es empfehlen. Bin aber ein Fan der Serie. Gefällt aber auch ohne ein Fan zu sein.

**Kurzbeschreibung** The close professional relationship between Jack Klugman and Tony Randall has long been famous, but the details of their personal friendship have never been revealed until now. In *Tony and Me* by Jack Klugman with Burton Rock the depth of this friendship is fully explored and touchingly revealed for the very first time. In his tribute, Klugman provides the ultimate insiders view of a relationship that went well beyond what the public saw in *The Odd Couple*. *Tony and Me* follows both actors from their early days of stage and television to the Camelot of *The Odd Couple*; from Klugmans fight with invasive throat cancer to Randalls struggle to open a National Actors Theatre. What emerges is a touching portrait of a legendary professional relationship that, in the end, became deeply personal. *Tony and Me* also has a foreword by Garry Marshall and includes over fifty photographs, many from Jack and Tonys private collection, as well as an included DVD of never-before-seen out takes from *The Odd Couple*. This final component makes *Tony and Me* a great experience not only for diehard fans and history buffs, but for anyone in search of a good laugh.
