**Von Margot McDonnell : Torn to Pieces** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Torn to Pieces:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Courtesy of Teens Read Too Von TeensReadToo Anne is a 17-year-old girl who lives with her quirky mother. Ever since Anne was little, she and her mother (and her grandparents) would move around every once in a while. Anne's mom is a writer so she does a lot of traveling, and Anne is by herself. She often stays with her grandparents just down the street,

because it's creepy being alone in that big house. Anne has always found her mother to be a bit strange by the furniture that she buys and the long business trips that she takes. But her mother has always been a stable figure, and Anne hasn't minded her mother's long trips because she always comes back and is always there for her. But when her mother misses Anne's birthday, she knows that something is up. Not once has her mother ever missed her birthday, no matter what. Immediately, Anne starts to investigate, starting off with asking her grandparents questions. When that doesn't work so well she starts to dig further. Who knows what she may find out... This book was so addicting. I read it in two days. It really was a page-turner. It seemed kind of like a mystery to me. I had to keep guessing what was going to happen. Anne was such a determined character. She would stop at nothing to find out what was going on with her mother and I loved that about her. The secondary characters were pretty awesome, as well. All in all, **TORN TO PIECES** was just a really good book. The writing was great and the suspense was awesome. I'd check this one out if you're in for some mystery and suspense. Kurzbeschreibung **SEVENTEEN-YEAR-OLD ANNE ALWAYS** thought her mother was kind of quirky. In fact, her mom's taste in 70s-esque furniture and mysterious frequent business trips were just the tip of the quirky iceberg. When her mom doesn't come home on time from one of her long jaunts, Anne isn't too surprised. But when a day late turns into a few days late, Anne knows something is very wrong. She tries the hotel number that her mother left her, but it has been disconnected. Then a strange man keeps leaving messages on their answering machine, looking for a woman who doesn't even live there. However, when Anne discovers a lengthy letter from her mother explaining why she has disappeared, the fabric of Anne's relatively normal life is torn to pieces. Despite her shock, Anne must pull herself together and protect herself from people who want to find and hurt her mother, and the strange new boy who may change everything. From the Hardcover edition.
