KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Courtesy of Teens Read TooVon TeensReadTooLucia Latham has to win the election. She just has to! She was class president

in sixth and seventh grade. Never has the same student been voted president of Angus Junior High three years in a row, and Lucia will do whatever it takes to make history, including talking her friend, Melanie, into running for president alongside her. There's no way Melanie will beat her, and when she comes in second, then Melanie would become her vice-president. And with her best friend, Cooper, running unopposed for secretary, she'll have no problems getting the council to go along with her big idea! But, in asking Melanie to run, she doesn't figure in the possibility that Melanie might actually be more popular than she is. And when the principal puts Lucia's big plan into motion, Lucia doesn't expect the students, including those on her own council, to hate it. And since nobody else really cares about student council the way she does, Lucia certainly never expected Nicole Jeffries, the school's top reporter, to discover that she had broken one of the student council by-laws, resulting in a scathing article that called for Lucia to resign or be impeached! As Lucia's presidency crumbles she finds she has no one to talk to. Her father has been little more than useless since losing his job. Her mother, already stressed from having to carry the full financial load, is all out of sympathy. And Melanie seems to actually enjoy being the new president. Lucia heads over to Cooper's to vent and ends up confused and angry when she finds him boxing with Melanie! What will Lucia decide to do when she finds out about Melanie's plan for the big yearly 8th-grade fundraiser? Will she be able to help her dad find his way back into the game? And what about Cooper? Will she ever be able to look at him like she used to? Her best friend ever? Once again, Ms. Morris has created a delightful cast of characters. The reader will relate to Melanie's frustration after doing something she knew was wrong, and now having to cope with the natural consequences. They'll recognize her confused emotions as Cooper stirs strange feelings, and her resulting jealousy of Melanie. Sprinkle in a few upper cuts and jabs, and the result is a total knockout! Although this second book is more serious than Taylor Morris' debut novel, if you loved CLASS FAVORITE, you will be equally thrilled with TOTAL KNOCKOUT! Reviewed by: Cana Rensberger

Kurzbeschreibung There's nothing ordinary about Lucia Latham - she gets straight A's, she's been middle school Class President for two years running and she's a great boxer - nothing is more fun than a good old sparring match with best friend Cooper, especially since she usually wins. In short, there are few things Lucia tackles that don't turn out exactly how she wants them. So at the beginning of her 8th grade year, Lucia has no reason to believe that things won't continue being easy - until she sticks her foot in her mouth in a HUGE way. Then it seems her carefully constructed world is crashing down around her. Can she regain her super star status or will she be forced to lower her expectations?
