Kurzbeschreibung So often we stand on the outside, looking in. We watch others who have a sincere godliness, but it seems beyond our reach. K.P. Yohannan challenges us that we, too, can touch godliness as we follow Christ down the path of total surrender and submission. Chapter by chapter, he gently confronts us with truth that few others are willing to say truth that leads to the abundant life we so desire. The included study guide has thought-provoking questions and pointed action steps to help us move beyond head knowledge to heart transformation. A perfect book for your small group study!
