Von Dale Martin : Trapper's Bible: Traps, Snares Pathguards before purchasing it in order to gage whether or not it would be worth my time, and all praised Trapper's Bible: Traps, Snares Pathguards:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Trapper's Bible: Traps, Snares and PathguardsVon Lee Ann KithcartAn excellent source for the complete novice. Martin's work is clear, complete and even humorous. As someone who did not even know the difference between a trap or a snare, I can highly recommend this book as a first step in finding out. The illustrations are flawless. I am someone mildly concerned about the impact of Y2K and this book was a wealth of information on being able to provide meat for yourself in the event of emergencies. Happy reading!1 von 1 Kunden fanden die folgende Rezension hilfreich. Finally a book on trapping you can use...Von Ein KundeI have read many books on survival and trapping.

They all dealt a little with the art of trapping to acquire food for survival, but did not give the in depth instruction and details for both large and small game as this book has. I would recommend this book to any one that is trying to hone-up their survival skills or just wish a low cost alternative to controlling pest in their garden. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Not the run of the mill! Unique information! Von Ein Kunde Not the run of the mill trapping or survival book. Contains unique information I have not seen in other books of this genre'. To the author: Excellent job! Researched in detail!

Kurzbeschreibung The traps, snares and pathguards detailed here can be constructed out of the most basic materials, keeping your expenses down and your net profits up. Includes pest snares, large animal snares, and transplant traps, plus camp alarms that alert you to intruders and deadly pathguards that could save your life.
