Gutgeschriebene BiografieVon Jrgen CapitolIch kenne nur zwei Biografien ber den britischen Weltstar Trevor Howard, diese hier ist die bessere und kundigere. Hier wird auch die Persnlichkeit des knorrigen Howards nicht "geschnt" und es werden seine groartigen Leistungen anerkannt, die von "Brief Encounter" bis zu "Ghandi" reichen und Meisterwerke wie "Der Dritte Mann", "Verdammte der Inseln" und "Lichtjahre entfernt" oder Groproduktionen wie "Meuterei auf der Bounty" (auf der er Brando an die Wand spielte) oder "Luftschlacht um England" oder "Superman" umfasst. Das Buch verdient es wirklich, auch in deutscher Sprache zu erscheinen, Trevor Howards Leben

und Wirken ist weitaus interessanter als das, was sich bei uns auf dem Biografienmarkt tummelt.

Kurzbeschreibung This authorised biography of Trevor Howard, written with the actors full co-operation, is crammed with facts and insights and anecdotes about his long, distinguished acting career. For forty years, from the mid-1940s, Trevor Howard was one of the great stars of British cinema, and worked with some of the best directors around, many of whom have added their recollections to this entertaining book. Lavished illustrated, the book includes many photographs of his childhood in Ceylon and schooldays at Clifton College, being seen here for the first time. His colourful personal life, ie, the hell-raising years, are also examined in detail. Terence Pettigrew knew him well and has created a comprehensive, true-life portrait of a great actor.
