Beautifully Written Marian TheologyVon Ein KundeThis is one of those books that actually helps one in developing their spirituality. There are many books out there for spiritual fulfillment, yet they often leave you in a state of limbo or barely touched, this books is much different. St. Louis DeMontfort writes straight from the heart and speaks of Mary as a child for love of his mother. At the same time, his theology is one to be reckoned with, especially one so Marian yet so Christological. John Paul II attributed this book to his great marian devotion and Mother Teresa recommended the pope make him a doctor of the Church, as a result of this sound and very well laid out Marian theology. I recommend this book highly and, although there are times when his theology can become hard to follow, it is worth the time and effort to figure it out, you will not be disappointed.0 von 0 Kunden fanden die folgende Rezension hilfreich. Marian spirituality at its best!Von Ein KundeI can confidently say that this is the best book about Mary I have ever read, and one of the best on the interior life. It is translated by Father Frederick Faber, one of the most proficient of contemporary Catholic authors. But it is not recommended for newcomers to the Catholic faith.0 von 0 Kunden fanden die folgende Rezension hilfreich. Everything You Wanted To Know About MaryVon Jon D.
