Von Alexandre Dumas pre : Twenty Years After (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twenty Years After (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. Book was great, but other reviewers please know your subject Von Ein Kunde This book, like most of Dumas' work is wonderful. His adventure stories still evoke a sense of wonderment and raise the hairs on the back of your neck. Most movies of the same titles do not portray the events as he wrote them, but I have found that most accomodate the tempo

or the 'feel' of his novels. I would additionally like to set the record straight on the trilogy argument that I see in most of the reviews in this page. The series was originally published as a trilogy, *The Three Musketeers*, *Twenty Years After*, and *Vicomte de Bragelonne*. The *Vicomte de Bragelonne* is now published by most in three volumes: *Vicomte de Bragellone*, *Louise de la Valliere*, and finally *The Man in the Iron Mask*. I have seen it split into four parts with *Ten Years Later* being placed in between the *Vicomte de Bragellone* and *Louise de la Valliere*. This splitting was done because when the three are combined, or rather not split, the novel is large and cumbersome to read. I hope that all this literary information does not detract one from the greatness of this series however, it is truly a wonderful tale to read about, and the story endures through to modern times with the same fervor in which it was released. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The true personification of romance! Von Ein Kunde While my copy of Dumas' "*Three Musketeers*" bears the mark of my having reread it six or seven times in the form of dog-eared and slightly bent pages, my copy of "*Twenty Years After*" is probably just as worn, if not more so, as the original manuscript. This enchanting depiction of love-the love between a father and son, and between friends-surpasses all previous attempts to convey the true depth of this emotion. Dumas portrays his characters in the most intricate and emotionally provocative light, particularly Athos. This incarnate depiction of nobility and goodness is the heart and soul of the book, as a father, a friend, a soldier dedicated to the cause of justice. The work is written with such a deep and apparent sense of humanity, to the point where the reader is drawn into every battle, becomes a passionate proponent of every cause. Overall, this is a breathtaking, passionate work, full of intrigue and not at all lacking in humor. An absolute must-read! 0 von 0 Kunden fanden die folgende Rezension hilfreich. The meaning of true friendship Von Ein Kunde Twenty years have gone by since the last time D'Artagnan saw Athos, Porthos and Aramis. The Great Richelieu is dead and the life of King Charles of England is in danger. Can there be a better moment for a rendezvous? This book might be the best of the trilogy. The musketeers are not as hotheaded or as sincere as they once were, and their friendship is about to face a trial of fire when they discover they no longer share their personal goals. But it was because of this book that the *Musketeer Series* has been called *The Greatest Ode to Real Friendship*. And, since there barely exist a couple of movies about this title, you won't be comparing it with anything you've seen before. Enjoy! ... And learn which were the real names of Porthos and Aramis, by the way.
