Courtesy of Teens Read TooVon TeensReadTooWhat happens when the only person you think understands you is gone? It happened to Serena when she lost her friend Kori.Her friendship with Kori started just a short time ago, but the two have come to almost define each other. Serena not only adopted Kori's look and style, but also gained her protection

and support. Both girls struggle with family issues, but life seemed a bit easier when they could escape together. Kori brought out the wild side of Serena. There were late night rendezvous, smoking, tongue piercings, and plans of a tattoo. Serena became more of a risk-taker and more sure of herself when Kori was there. Serena had other friends, but everyone took a step back when the two girls were together because their connection was special. The already rocky relationship Serena had with her mother became even edgier when her mother demanded that the two girls not see each other. The accident was a shock to everyone. The ride Kori accepted with Parker became her last, and it left Serena with a feeling of responsibility to complete the tasks left undone by her friend. It was obvious from the funeral and memorial tribute that Kori's family didn't know her like Serena did, which meant that only Serena knew what to do to honor her memory. But when Serena began to check off the tasks on Kori's list, she began to uncover secrets about her own life. Brooke Taylor is a YA author to keep an eye on. She realistically captures the frustration of teens trying to deal with family issues, school pressure, and finding a place to fit in. Readers from all backgrounds will be able to find themselves in Taylor's characters. The teen world of insecurities, impulsive decisions, and shifting emotions is well-developed in the storyline of *UNDONE*. I look forward to Ms. Taylor's next book.
