A compendium of true stories surrounding feminism gone badVon Ein KundeWhat happens when women fighting for a voice in the Church turn away from the very things every Catholic holds to be true? Find out in this book! It may scandalize some people, but I'm afraid it's the truth. Donna Steichen has even said that radical feminists have tried to

stop the circulation of this book but simply cannot because it's all documented! Steichen shows where radical feminism in the Church has taken us and it's not a pretty place. It truly is a collection of horror stories showing how things went awry. Recommended for anyone who wants to understand how things got to be so bad in women's religious communities and how true feminism in the Church was perverted.

KurzbeschreibungWritten by a Catholic journalist who has investigated feminism on its own ground, this remarkable book fully exposes the hidden face of Catholic feminism for the first time, revealing its theoretical and psychological roots in loss of faith. Extensively documented, this is the definitive account of a movement impelled by vengeful rage to revolt against all spiritual authority, providing detailed information on Catholic feminist theologians, organizers, the movement's defense of abortion, its connections with witchcraft and New Age rituals, and its disastrous effects on the Catholic faithful. This book should be welcomed by Catholic men and women striving to understand the disarray in the Church, and what can be done about it.
